Lining Out Stock

For The Nursery Trade Only

SPRING 1936

Armstrong Nurseries

Ontario, California

CONDITIONS OF SALE

Everything offered in this list is well grown and well graded and nothing other than the best will be shipped to our wholesale customers. We try to handle your orders as we would wish them handled if they were being shipped to us.

TERMS:

1. Cash with order.
2. C. O. D. One-half of the amount may be remitted with the order, balance to be paid on delivery at destination.
3. Charge Accounts. Our terms are strictly sixty days net from date of invoice to all who have established their credit with us. New charge accounts opened only upon the receipt of satisfactory bank or trade references, allowing time for investigation.

RATES: Less than 250 of one variety at the rate listed. 250 or more of one variety, less 10%. Not less than 25 plants of one variety sold.

PACKING: We use our judgment in packing each shipment unless given explicit instructions. Most Lining-Out Stock from beds or flats is shipped bare root to distant points, with roots puddled and packed in moss. The flats (containing 100 plants) weigh 50 pounds each packed and are heavy for distant shipments by express, but for short hauls or carload shipments it is often safer and more convenient to ship in the flats. Small plants in pots are taken out and wrapped separately in paper, removing as much earth as may be safe. No packing charges on carload shipments. On all other shipments we charge the cost of the packing material only.

TRANSPORTATION: Express is the best mode of shipment for Lining-Out Stock shipped to distant points, although small quantities of bare root plants may be handled by parcel post. Points on or near through railroad lines may often be reached by fast package car freight service at cheap freight rates.

Ontario is located on the Southern Pacific, Union Pacific, and Santa Fe railroads, giving us main line service. Unless given instructions, we use our judgment in selecting the method of shipment, keeping in mind safety and cost of transportation, but with the understanding that this is without responsibility on our part. All shipments travel at the risk and cost of purchaser.

CLAIMS for any cause must be made upon receipt of goods. We will entertain no claims made later than **ten days** after receipt of the stock.

PRICES: The prices in this list are based on present conditions and are subject to change without notice.

FOREWORD

It is our honest opinion that the present supply of well-grown young ornamental plants will prove inadequate to meet the demand during the next few years and it seems to us that those nurserymen who invest in well-selected stocks of first-class Lining-Out plants and care for them properly will make larger returns on their investment than they can make in any other way. We have tried to grow as complete a list of varieties as possible and to offer the plants at prices as low as is consistent with good quality.

As a guide to the approximate hardiness to cold we have marked each variety, using the following legend:

H—Hardy to zero. O—Hardy to about 15 degrees. *—Hardy to 25 degrees. □—Hardy to 30 degrees.

BROAD LEAF EVERGREENS

THE NEW MEXICAN RED ABELIA

O (*Abelia Floribunda*) 4'

This wonderful new Abelia variety has taken the country by storm and there is now a heavy unsatisfied demand for plants all through the warmer parts of the United States. The 2-inch long tubular flowers of glowing red are borne in great profusion up and down the stem, bending the branches and giving the plant the appearance of a fountain on fire. Strong, thrifty plants in 2½-inch pots, \$.20 each.

THE NEW LAVENDER FLOWERED ABELIA

H (*Abelia Schumannii*) 6'

This variety is hardier than *Abelia floribunda* and can be grown anywhere the old favorite *Abelia grandiflora* is hardy. The flowers are about twice the size of *Abelia grandiflora* and much darker in color, being a soft pinkish-lavender. It grows to 5 or 6 ft. and although it loses its foliage in cold situations, it is entirely evergreen in warm sections. Strong plants in 2½-inch pots, \$.12 each.

Abelia grandiflora (Glossy Abelia) H		
6 to 8 inches, in 2½-inch pots		\$.08
Abutilon sanguinea *		
Large scalloped crimson flowers.		
6 to 8 inches, in 2½-inch pots		.10
Alseuosmia macrophylla (New Zealand Honeysuckle) * / *		
Does best in partial shade. Will stand temperatures down to 25. Beautiful glossy leaves and brilliant red flowers.		
6 to 8 inches, in 2½-inch pots		.08
Aucuba japonica aurea variegata (Golddust Plant) O		
6 to 8 inches, in 3-inch pots		.10
Barleria cristata 3' *		
A small rather tender shrub with shiny oval leaves and spikes of lavender-blue flowers.		
4 to 6 inches, in 2½-inch pots		.08
Bauhinia purpurea (Orchid Tree) (S) *		
4 to 6 inches, in 2½-inch pots		.10
Berberis darwinii (Darwin Barberry) H		
A very hardy Barberry, evergreen in even cold situations. Yellow flowers followed by beautiful blue fruit.		
5 to 7 inches, in 2½-inch pots		.08
Berberis prpinosa H		
Another evergreen Barberry, very hardy and a little larger than the above. The foliage is larger also.		
5 to 7 inches, in 2½-inch pots		.10
Berberis thunbergi atropurpurea (Red-leaved Barberry) H		
A deciduous variety with deep red leaves which is so popular.		
4 to 6 inches, in 2½-inch pots		.10
Berberis verruculosa 2' H		
3 low-growing, very compact Barberry with glossy green leaves, yellow flowers and blue berries. Undoubtedly one of the finest Barberries in existence. Very hardy.		
3 to 5 inches, in 2½-inch pots		.12
Berberis Wilsonae (Wilson's Barberry) H		
3 to 5 inches, in 2½-inch pots		.10
Boronia elatior *		
6 to 8 inches, in 2½-inch pots		.10
Bouvardia Coral Gem *		
6 to 8 inches, in 2½-inch pots		.10

THE NEW FOUNTAIN BUDDLEIA

(Buddleia alternifolia) 6' H

A hardy, shrubby Buddleia with arching, pendulous branches completely covered with lilac-purple very fragrant flowers in the spring. The plant explorer, Farrer, who found this plant in China, described it as "A sheer waterfall of purple," an apt description. Partially evergreen. Strong plants in 2½-inch pots, \$.12.

Buddleia asiatica (Butterfly Bush) H		
8 to 10 inches, in 2½-inch pots.....		.07
Buddleia ((Ile de France") H		
Somewhat like <i>Buddleia veitchiana</i> but with larger flower spikes of a more brilliant rosy purple tinted with violet. The flowers are deliciously fragrant.		
6 to 8 inches, in 2½-inch pots.....		.10
Buddleia veitchiana (Summer Lilac) H		
8 to 10 inches, in 2½-inch pots.....		.07
Buxus arborescens (Tree Box) O		
8 to 10 inches, once transplanted.....		.03
Buxus japonica (Japanese Boxwood) O		
4 to 6 inches, once transplanted.....		.02
Buxus sempervirens (English Boxwoods) O		
4 to 6 inches, once transplanted.....		.02
6 to 8 inches, once transplanted.....		.03
5 to 7 inches, in 3-inch pots.....		.10
Buxus sempervirens suffruticosa (Dwarf English Boxwood) O		
3 to 5 inches, once transplanted.....		.04
Callistemon rigidus (Bottle Brush) (S) O		
6 to 8 inches, in 2½-inch pots.....		.07
Cistus purpureus (Rose-pink Rock Rose) 4' O		
Probably one of the finest shrubs for color in a dry, warm location. Beautiful rosy pink flowers without a touch of magenta.		
4 to 6 inches, in 2½-inch pots.....		.10

CISTUS PURPUREUS—The Beautiful New Rock Rose

Callistemon viminalis (Weeping Bottle Brush) (S) O		
6 to 8 inches, in 2½-inch pots.....		.08
Camphora officianalis (Camphor Tree) O		
6 to 8 inches, in flats.....		.05
Ceanothus spinosus (S) 10' O		
An excellent variety for dry locations. Light blue flowers.		
6 to 8 inches, in 2½-inch pots.....		.08
Ceratonia siliqua (Carob Tree) (S) O		
4 to 6 inches, in 2-inch paper pots.....		.08
Cestrum aurantiacum (Orange Cestrum) *		
6 to 8 inches, in 2½-inch pots.....		.08
Cestrum fasciculatum *		
Similar to the above but with larger red flowers.		
6 to 8 inches, in 2½-inch pots.....		.10
Cistus ladaniferus maculatus (Spotted Rock Rose) O		
8 to 10 inches, in 2½-inch pots.....		.10
Coprosma baueri (Varnish Plant) (S)		
4 to 6 inches, in 2½-inch pots.....		.07
Cotoneaster acuminata O		
4 to 6 inches, in 2½-inch pots.....		.07
Cotoneaster coolidgei 3'		
An excellent dwarf variety with gray-green foliage and quantities of red berries.		
6 to 8 inches, in 2½-inch pots.....		.10
Cotoneaster franchetti O		
6 to 8 inches, once transplanted.....		.05
4 to 6 inches, in 2½-inch pots.....		.08
6 to 8 inches, in 2½-inch pots.....		.10
Cotoneaster harroviana O		
6 to 8 inches, once transplanted.....		.05
4 to 6 inches, in 2½-inch pots.....		.08
Cotoneaster horizontalis H		
8 to 12 inches, once transplanted.....		.05
6 to 8 inches, in 2½-inch pots.....		.08
Cotoneaster humafusa O		
This variety is excellent for a ground cover, rooting at the nodes and gradually covering quite an area. Grows absolutely flat, has good glossy green foliage and many red berries.		
4 to 6 inches, in 2½-inch pots.....		.10
Cotoneaster microphylla O		
An excellent little shrub growing about 18 inches in height with small leaves and quantities of red berries.		
4 to 6 inches, in 2½-inch pots.....		.08
8 to 12 inches, in 2½-inch pots.....		.10
Cotoneaster pannosa (S) O		
6 to 8 inches, in 2½-inch pots.....		.08
Cotoneaster pannosa nana 3' O		
An interesting little dwarf with the same habit as Cotoneaster pannosa except that it grows only about 3 feet in height. Can be used in many locations where the taller growing variety is not suitable.		
5 to 7 inches, in 2½-inch pots.....		.10

Cotoneaster salicifolia (Willow leaf Cotoneaster) O		
4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....		.08
Diosma alba (Breath of Heaven) *		
4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....		.08
Diosma pulchrum 3' *		
The new pink Breath of Heaven. This new pink Diosma from South Africa is proving to be wonderfully well adapted to California and the South and there is an excellent demand for the plants. It grows rapidly and these plants will soon grow into real value.		
4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....		.12
Dombeya wallichii 15' *		
Bell-shaped pink flowers on a tropical-appearing plant.		
8 to 12 inches, in 2 $\frac{1}{4}$ -inch pots.....		.08
Duranta plumeri (Sky Flower) *		
6 to 8 inches, in 2 $\frac{1}{4}$ -inch pots.....		.08
Elaeagnus fruitlandi O		
4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....		.10
Erica australis O		
4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....		.10
Erica blanda (Pink Flowers) O		
Almost constantly in bloom.		
4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....		.08
Erica charlesiana O		
Tall-growing variety with pink flower spikes.		
4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....		.10
Erica hyalina (Copper-colored flowers) O		
4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....		.08
Erica lusitanica (White Spanish Heather) O		
4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....		.08
Erica mediterranea H		
A very hardy variety with pink flowers.		
4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....		.08
Erica mediterranea hybrida H		
A dwarf hardy Heather with pink flowers.		
3 to 5 inches, in 2 $\frac{1}{4}$ -inch pots.....		.10
Erica melanthera rosea O		
Same as the old-type melanthera except that the flowers are a lovely shade of deep pink. Sells much better than the old type.		
4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....		.10
Erica melanthera rubra O		
A low-growing red melanthera.		
4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....		.12
Erica persoluta rosea O		
Absolutely covers itself with rosy purple flowers.		
4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....		.10
Erica stricta H		
A low growing, hardy Heather with rosy purple flowers.		
4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....		.08
Escallonia glasnevinensis 5' O		
A low growing variety with beautiful pink flowers.		
6 to 8 inches, in 2 $\frac{1}{4}$ -inch pots.....		.10

Escallonia microphylla 5' O

Another low grower with red flowers and very small leaves.	
6 to 8 inches, in 2½-inch pots.....	.10
Eucalyptus citriodora (Lemon Scented Gum) (S) *	
4 to 6 inches, in 2½-inch pots.....	.08
Eucalyptus corynocalyx (Sugar Gum) (S) *	
4 to 6 inches, in flats.....	.02
Eucalyptus globulus (Blue Gum) (S) *	
4 to 6 inches, in flats.....	.02
Eucalyptus leucoxylon rosea (Pink Flowered Ironbark (S) *	
4 to 6 inches, in flats.....	.02
Eucalyptus polyanthema (S) *	
4 to 6 inches, in flats.....	.02
Eucalyptus rostrata (Red Gum) (S) *	
4 to 6 inches, in flats.....	.02
Eucalyptus rufa (Desert Gum) (S) O	
4 to 6 inches, in flats.....	.02
Eucalyptus viminalis (Manna Gum) (S) O	
4 to 6 inches, in flats.....	.02
Euonymus japonica (Japanese Euonymus) O	
4 to 6 inches, in flats.....	.04
Euonymus japonica fertilis O	
Same as above except that it produces quantities of red berries.	
6 to 8 inches, in flats.....	.04
Euonymus japonica aurea-marginata (Gold margined Euonymus) O	
4 to 6 inches, in flats.....	.04
Euonymus japonica aurea-variegata (Golden variegated Euonymus) O	
4 to 6 inches, in flats.....	.04
Euonymus microphylla (Dwarf Small Leaved Euonymus) O	
4 to 6 inches, in flats.....	.04

NEW HYBRID BROOMS**Genista dallimorei 5' O**

A beautiful new hybrid Broom of semi-dwarf habit, compact and rounded with deep green foliage, absolutely covered in the spring with flowers which are first purple and golden and then change to a golden brown when fully open.

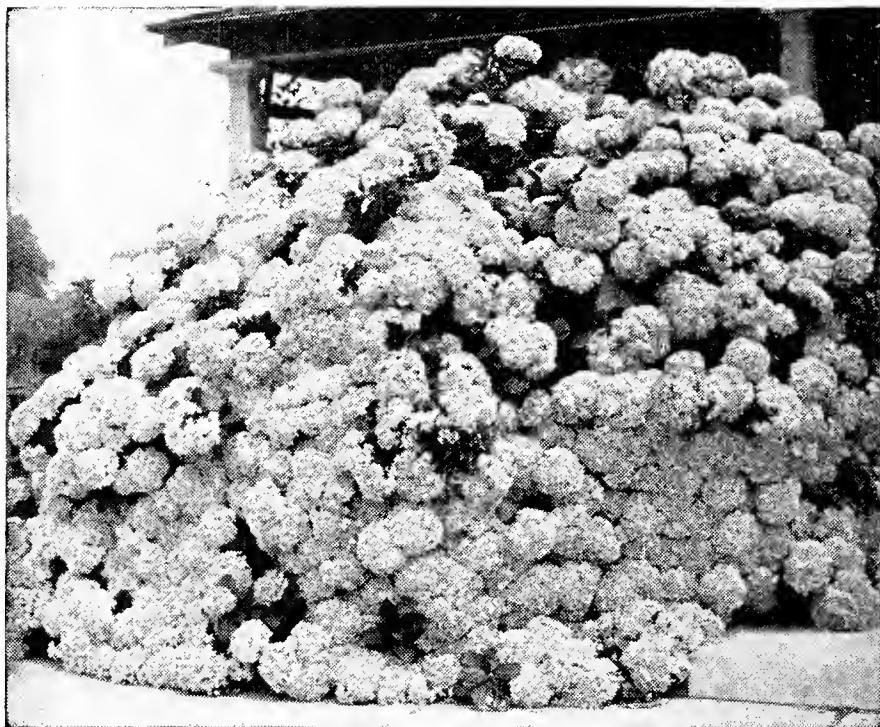

5 to 7 inches, in 2½-inch pots.....	\$.12
-------------------------------------	--------

GENISTA NEWREYENSIS 5' O

Another colorful new Broom growing taller than Genista dallimorei but an excellent companion variety. Large blooms, an inch or more across, of creamy yellow and rich mahogany red, borne in long spikes.

6 to 8 inches, in 2½-inch pots.....	\$.12
-------------------------------------	--------

<i>Euonymus microphylla variegata</i> (Variegated Small Leaved Euonymus) O		
4 to 6 inches, in flats.....		.04
<i>Euonymus japonica viridi-variegata</i> (Duc de Anjou) O		
10 to 15 inches, in flats.....		.04
<i>Euonymus kewensis</i> O		
A new variety originating in the Kew Gardens. A trailing type that grows rather fast and is unexcelled for covering over rocks or stumps.		
3 to 5 inches, in 2-1/4-inch pots.....		.10
<i>Grevillea banksi</i> 8' *		
A large shrub with brilliant red comb-like flowers. Hardy to 22 degrees.		
4 to 6 inches; in 2 1/4-inch pots.....		.10
<i>Grevillea paniculata</i> *		
Prostrate grower. White flowers.		
4 to 6 inches, in 2 1/4-inch pots.....		.10
<i>Hibiscus Agnes Gault</i> □		
The largest flowered pink variety.		
4 to 6 inches, in 2 1/4-inch pots.....		.10
<i>Hibiscus Apricot</i> □		
Medium-sized flowers of glowing Apricot.		
4 to 6 inches, in 2 1/4-inch pots.....		.10
<i>Hibiscus Brilliant</i> □		
The name describes it exactly. Brilliant single scarlet flowers.		
4 to 6 inches, in 2 1/4-inch pots.....		.10
<i>Hibiscus Double Red</i> □		
8 to 10 inches, in 2 1/2-inch pots.....		.10
<i>Hibiscus pedunculatus</i> □		
Small lavender flowers borne profusely.		
6 to 8 inches, in 2 1/4-inch pots.....		.10
<i>Hypericum calycinum</i> (Rose of Sharon) H		
Low grower. Yellow flowers. Excellent for ground cover.		
6 to 8 inches, in 2 1/4-inch pots.....		.06
<i>Ilex crenata</i> (S) H		
A very compact, slow growing Holly with small crenate leaves and quantities of red berries.		
3 to 5 inches, in 2 1/4-inch pots.....		.08
<i>Jacobinia carnea</i> * Pink flowers.		
6 to 8 inches, in 2 1/4-inch pots.....		.08
<i>Laurus cerasus</i> (English Laurel) H		
4 to 6 inches, in 2 1/4-inch pots.....		.10
<i>Laurus nobilis</i> (Grecian Bay Laurel) H		
3 to 5 inches, in 2 1/4-inch pots.....		.10
<i>Leonotus leonurus</i> (Lion's Tail) *		
6 to 8 inches, in 2 1/4-inch pots.....		.08
<i>Leptospermum nichollssii</i> (Red Flowers) O		
4 to 6 inches, in 2 1/4-inch pots.....		.10
<i>Ligustrum sinensis</i> (Small Leaved Chinese Privet) (S) H		
8 to 12 inches, in flats.....		.02

HYDRANGEAS SOON GROW INTO MONEY

HYBRID HYDRANGEAS O

Strong plants in 2 $\frac{1}{4}$ or 2 $\frac{1}{2}$ -inch pots.....	\$.10
<i>America.</i> Large flowers of brilliant deep rose-pink.	
<i>Avalanche.</i> White flowers with a tinge of light pink after they are older.	
<i>Deutschland.</i> Rich salmon pink.	
<i>Guadrun.</i> Deep rose-pink flowers.	
<i>Triomphe.</i> A very fine large flowered deep pink.	

Hydrangea hortensis

6 to 8 inches in 2 $\frac{1}{2}$ -inch pots.....	.10
--	-----

Hydrangea hortensis var.

6 to 8 inches, in 2 $\frac{1}{2}$ -inch pots.....	.10
---	-----

Magnolia grandiflora (Southern Magnolia) (S) O

4 to 6 inches, in 2-inch paper pots.....	.08
--	-----

Mahonia japonica (Japanese Mahonia) (S) O

4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....	.08
---	-----

Myoporum laetum *

6 to 8 inches, in 2 $\frac{1}{4}$ -inch pots.....	.07
---	-----

Myrtus communis variegata (Variegated Roman Myrtle) O

4 to 6 inches, in flats.....	.04
------------------------------	-----

Nandina domestica (Japanese Sacred Bamboo) (S) O

4 to 6 inches, in flats.....	.04
------------------------------	-----

Osmanthus aquifolium (Holly Leaved Osmanthus) H

4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....	.10
---	-----

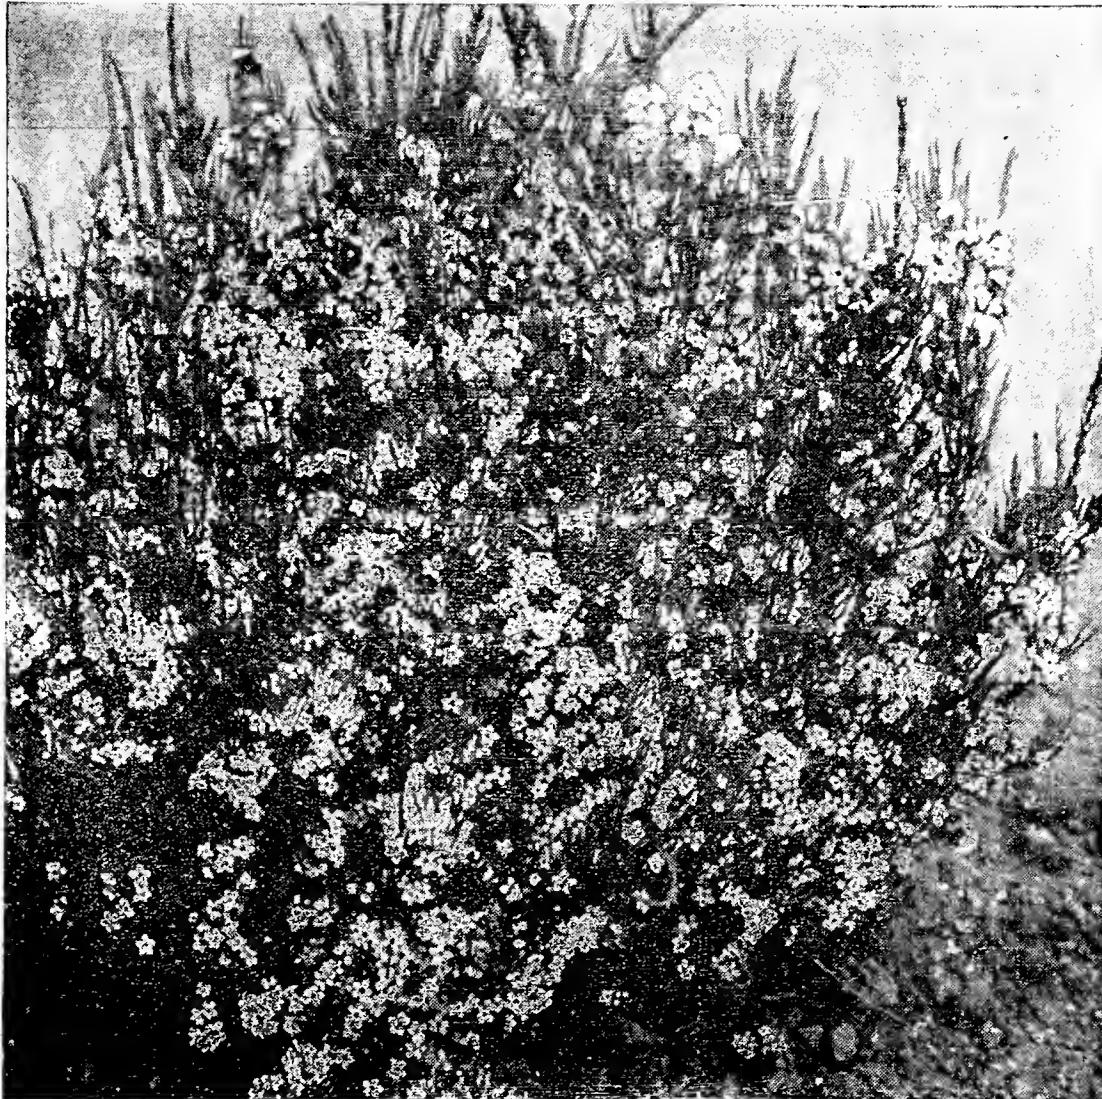

Osmanthus fragrans (Sweet Olive) O

4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots.....	.10
---	-----

Photinia arbutifolia (California Holly or Toyon) (S) O	
Well-known California Christmas berry.	
3 to 5 inches, in 2½-inch pots.....	.10
<hr/>	
NERIUM (Oleander) O	
The following varieties are available:	
6 to 8 inches, in 2½-inch pots.....	\$.08
<i>Atroplenissima</i> . Double blood red.	
<i>Double Light Pink</i> .	
<i>Gigantea splendens</i> . Double rose pink. Very large.	
<i>Mrs. Roeding</i> . Double salmon pink.	
<i>Rosea</i> . Double rose pink.	
<i>Single Cherry Red</i> . Has the fragrance of cherries.	
<hr/>	
Pittosporum tobira variegata (Variegated Tobira) O	
6 to 8 inches, in 2½-inch pots.....	.08
Prunus integrifolia (Catalina Cherry) (S) O	
6 to 8 inches, in 2½-inch pots.....	.08
Psidium araca □	
Large fruited Lemon Guava.	
4 to 6 inches, in flats.....	.05
Punica granatum nana (Dwarf Evergreen Pomegranate) O	
5 to 7 inches, in 2½-inch pots.....	.08
Pyracantha kansuensis O	
An orange-scarlet berried form producing great quantities of rather small berries.	
6 to 8 inches, in flats.....	.04
Raphiolepis japonica (Ovata) (Japanese Hawthorn) (S) O	
6 to 8 inches, in 2½-inch pots.....	.08
Salvia involucrata *	
Beautiful red flowered shrub Salvia.	
6 to 8 inches, in 2½-inch pots.....	.10
Salvia leucantha (Mexican Salvia) O	
Purple Flowers.	
6 to 8 inches, in 2½-inch pots.....	.08
Santolina H	
6 to 8 inches, in flats.....	.02
Schinus molle (California Pepper) (S) O	
6 to 8 inches, in flats.....	.04
Schinus terebinthifolius (Brazilian Pepper) *	
4 to 6 inches, in flats.....	.04
Sterculia acerifolia (Flame Tree) (S) *	
6 to 8 inches, in 2¼ or 2½-inch pots.....	.08
Tibouchina Semidecandra (Princess Flower) *	
8 to 12 inches, in 2½-inch pots.....	.08
Umbellularia californica (California Bay Tree) (S) O	
6 to 8 inches, in 3-inch pots.....	.10
Viburnum odoratissimum (Sweet Viburnum) O	
Large glossy leaves. Evergreen shrub. Quite hardy.	
5 to 7 inches, in 2½-inch pots.....	.10

VINES

Akebia quinata (Five-Leaved Akebia) (S) H		
6 to 8 inches, in 2½-inch pots.....		.08
Ampelopsis henryi (Silver Veined Creeper) H		
4 to 6 inches, in 2½-inch pots.....		.10
Ampelopsis tricuspidata H		
Form of Boston Ivy with much larger leaves of a glossier green than <i>A. veitchii</i> .		
6 to 8 inches, in 2½-inch pots.....		.10
Antigonon leptopus (Rosa de Montana) (S) O		
4 to 6 inches, in 2½-inch pots.....		.10
Aristolochia elegans (Calico Flower) (S) □		
6 to 8 inches, in 2½-inch pots.....		.10
Asparagus plumosus (S) O		
6 to 8 inches, in 2½-inch pots.....		.07
Asparagus sprengeri (S) O		
6 to 8 inches, in 2½-inch pots.....		.07
Bignonia cherere (Red Trumpet Vine) *		
6 to 8 inches, in 2½-inch pots.....		.10
Bignonia tweediana (Yellow Trumpet Flower) O		
6 to 8 inches, in 2½-inch pot.....		.10
Bignonia venusta (Flame Vine) □		
One of the most beautiful of the tender types of Trumpet Vine with great masses of flame-colored flowers.		
6 to 8 inches, in 2½-inch pots.....		.10
Bignonia violacea (Violet Trumpet Flower) *		
6 to 8 inches, in 2½-inch pots.....		.10
Bougainvillea brasiliensis *		
4 to 6 inches, in 2½-inch pots.....		.10
Ceropegia woodii *		
A trailing plant with small leaves. Very beautiful in hanging baskets.		
Strong plants, in 2½-inch pots.....		.08
Cissus capensis (Evergreen Grape) *		
6 to 8 inches, in 2½-inch pots.....		.10
Clematis paniculata (Sweet Autumn Clematis) H		
6 to 8 inches, in 2½-inch pots.....		.08
Ficus repens (Climbing Fig) *		
4 to 6 inches, in 2½-inch pots.....		.08
Gelsemium sempervirens (Carolina Jessamine) O		
8 to 12 inches, in 2½-inch pots.....		.08
Hedera helix (English Ivy) H		
6 to 8 inches, in flats.....		.03
6 to 8 inches, in 2½-inch pots.....		.06
Hedera helix hibernica (Irish Ivy) H		
Small-leaved form of the above.		
6 to 8 inches, in 2½-inch pots.....		.06

THE PINK BREATH OF HEAVEN—*Diosma Pulchrum*—See page 7

***Hoya carnosa* (Wax Vine) ***

4 to 6 inches, in 2½-inch pots..... .10

***Jasminum gracillimum* (Pin Wheeled Jasmine) O**

6 to 8 inches, in 2½-inch pots..... .10

***Jasminum grandiflora* (Spanish Jasmine) O**

8 to 12 inches, in 2½-inch pots..... .08

***Jasminum lucidum* O**

8 to 12 inches, in 2½-inch pots..... .08

***Jasminum primulinum* (Primrose Jasmine) O**

6 to 8 inches, in 2½-inch pots..... .08

***Jasminum revolutum* (Italian Jasmine) O**

8 to 12 inches, in 2½-inch pots..... .08

***Jasminum stephanense* H**

The new hardy pink Jasmine which has been such a sensation during the last year or two. Will stand a great deal of cold as well as heat.

8 to 12 inches, in 2½-inch pots..... .10

***Lonicera japonica halliana* (Hall's Japan Honeysuckle) H**

6 to 8 inches, in flats..... .03

6 to 8 inches, in 2½-inch pots..... .03

Lonicera japonica rosea (Pink Japanese Honeysuckle) H		
4 to 6 inches, in 2½-inch pots.....		.07
Lonicera sempervirens (Red Coral Honeysuckle) H		
6 to 8 inches, in 2½-inch pots.....		.08
Mandevillea suaveolens (Chile Jasmine) *		
Extremely fragrant. Two-inch flowers of pure white.		
6 to 8 inches, in 2½-inch pots.....		.10
Passiflora caerulea (Blue Passion Vine) *		
6 to 8 inches, in 2½-inch pots.....		.10
Philadelphus mexicanus (Climbing Syringa) O		
6 to 8 inches, in 2½-inch pots.....		.10
Solandra guttata (Cup of Gold) □		
6 to 8 inches, in 2½-inch pots.....		.10
Solanum jasminoides (Potato Vine) O		
8 to 12 inches, in 2½-inch pots.....		.08
Sollya heterophylla (Australian Bluebell Creeper) O		
6 to 8 inches, in 2½-inch pots.....		.10
Tecoma australis (Pondorea australis) *		
6 to 8 inches, in 2½-inch pots.....		.10
Tecoma capensis (Cape Honeysuckle) *		
A wonderful winter blooming shrub or climber for sections where the temperatures do not go below 25 degrees. Deep red flowers blooming in winter.		
6 to 8 inches, in 2½-inch pots.....		.10
Tecoma mackenii (Pink Trumpet Vine) *		
6 to 8 inches, in 2½-inch pots.....		.08
Thunbergia gibsoni (S) □		
Orange flowers.		
4 to 6 inches, in 2½-inch pots.....		.08

CAMELLIAS

The Aristocrats of Flowerdom O

The Japanese Camellias in the named varieties listed below are without a doubt the real aristocrats of the garden. These strong plants will soon grow into plants worth several dollars apiece if grown in the proper location and given reasonable care. We know of no better investment for the nurseryman who has lath-house facilities than the purchase of first-grade lining-out stock and we believe the Camellias to be one of the best bets for a profit in this entire list.

Cheerful

Clear, bright cherry red, very double, 3 to 4 inches across, high center, cupped petals. Very heavy bloomer. Good rich green foliage. Grows stronger than most other reds.

 4 to 6 inches, in 2½-inch pots.....\$.10

Nobilissima

Very double pure white. The earliest of all white blooms, peony type. Excellent.

 6 to 8 inches, in 2½-inch pots..... .15

Panache

An exquisite flower of shell pink and ivory white, each color fading into the other. Flowers about 4 inches across.

4 to 6 inches, in 2½-inch pots..... .15

Pink Perfection

Probably the best known and most popular of all Camellias. Delicate light pink flowers borne in immense quantities. Blooms very early and holds its blooms over a long period. Strong, vigorous grower.

4 to 6 inches, in 2½-inch pots..... .10

6 to 8 inches, in 2½-inch pots..... .12

Rosita

The strongest, thriftiest grower of all with deep rose-pink flowers, 3 inches across, petals arranged in very symmetrical form.

4 to 6 inches, in 2½-inch pots..... .10

6 to 8 inches, in 2½-inch pots..... .12

Tricolor

Large semi-double 5-inch blooms which may be all red, all white, or any combination of the two colors but the flowers that come out early in the season are usually pink with a white edge. As the plant gets older all the different types of flowers will appear on the plant at the same time making an extremely striking show.

4 to 6 inches, in 2½-inch pots..... .10

6 to 8 inches, in 2½-inch pots..... .12

CONIFERS

***Cedrus atlantica glauca* (Blue Atlas Cedar) H**

6 to 8 inches, grafted, in 2½-inch pots..... \$.25

***Cedrus deodara* (Deodar Cedar) (S) O**

4 to 6 inches, from seed bed..... .05

4 to 6 inches, in 2½-inch pots..... .07

***Chamaecyparis lawsoniana Alumi* (Blue Lawson Cypress) H**

6 to 8 inches, once transplanted..... .08

***Cham. lawsoniana argentea variegata* (Silver Variegated**

Lawson Cypress) H..... .10

6 to 8 inches, in 2½-inch pots..... .10

***Cham. lawsoniana pendula* (Weeping Lawson) H**

8 to 12 inches, once transplanted..... .08

8 to 10 inches, in 2½-inch pots..... .10

***Cham. lawsoniana Triumph de Boskoop* H**

6 to 8 inches, in 2½-inch pots..... .10

***Cham. lawsoniana wisseli* H**

A unique and beautiful conifer, the blue-green foliage arranged in cockscomb-like form, making a broad column. Beautiful in rock garden.

4 to 6 inches, once transplanted..... .08

6 to 8 inches, in 2½-inch pots..... .10

Cryptomeria japonica elegans (Plume Cypress) O		
6 to 8 inches, once transplanted.....		.08
Cupressus sempervirens (Royal Italian Cypress) O		
The true narrow, columnar, deep green form of Italian Cypress which is so popular in California and the South. These plants are grown from cuttings taken from the very finest selected trees.		
6 to 8 inches, once transplanted.....		.08
6 to 8 inches, in 2½-inch pots.....		.10
Juniperus chinensis alba variegata (Variegated Chinese Juniper) H		
4 to 6 inches, in 2½-inch pots.....		.10
Juniperus chinensis masculae H		
4 to 6 inches, in 2½-inch pots.....		.10
Juniperus chinensis pfitzeriana H		
Probably more used than any other spreading Juniper. We have an exceptionally fine strain which makes compact, very dense plants.		
6 to 8 inches, once transplanted.....		.08
6 to 8 inches, in 2½-inch pots.....		.10
Juniperus chinensis procumbens (Trailing Chinese Juniper) H		
6 to 8 inches, once transplanted.....		.08
4 to 6 inches, in 2½-inch pots.....		.09
6 to 8 inches, in 2½-inch pots.....		.10
Juniperus chinensis sargentii Blue (Sargent's Blue Juniper) H		
5 to 7 inches, once transplanted.....		.08
6 to 8 inches, in 2½-inch pots.....		.10
Juniperus chinensis torulosa (Twisted Juniper) H		
This, in the opinion of many nurserymen, is the most beautiful of the upright growing Junipers. It grows in a twisted green column to an ultimate height of 10 or 12 feet, although it is not an extremely fast grower. The dark green color is retained all through the year, not turning brown as do some varieties.		
6 to 8 inches, grafted, in 3-inch pots.....		.25
Juniperus communis depressa (J. Canadensis) H		
6 to 8 inches, once transplanted.....		.06
4 to 6 inches, in 2½-inch pots.....		.08
Juniperus communis depressa plumosa (Andorra Juniper) H		
4 to 6 inches, once transplanted.....		.08
6 to 8 inches, in 2½-inch pots.....		.10
Juniperus conferta (Shore Juniper) H		
This is an absolutely flat growing variety. Light green, with a soft appearance of the foliage which is unusual in Junipers. Much used on the Pacific Coast for bank covers. Does well almost anywhere.		
4 to 6 inches, once transplanted.....		.08
6 to 8 inches, in 2½-inch pots.....		.10
Juniperus excelsa stricta (Spiny Greek Juniper) H		
4 to 6 inches, once transplanted.....		.08

Juniperus chinensis globosa aurea variegata H

A very dwarf Juniper. Excellent for rock gardens since it does not over-grow. Plants several years old are only 1 to 2 feet in height, beautifully flecked with golden through the entire plant.

5 to 7 inches, grafted, in 2 $\frac{1}{4}$ -inch pots..... .25

***Juniperus hibernica fastigiata* (Narrow Irish Juniper) H**

4 to 6 inches, once transplanted..... .07

6 to 8 inches, once transplanted..... .08

***Juniperus horizontalis douglasii* (Waukegan Juniper) H**

A beautiful prostrate Juniper, coloring a deep purple in the winter.

4 to 6 inches, once transplanted..... .08

6 to 8 inches, in 2 $\frac{1}{4}$ -inch pots..... .10

***Juniperus japonica Bandai sugi* H**

This is a fine dwarf variety from Japan of vase-like habit, having dark green foliage nodding at the tips. Splendid for the rock garden.

3 to 5 inches, in 2 $\frac{1}{4}$ -inch pots..... .10

***Juniperus pachyphylaea glauca* (Blue Alligator Juniper) H**

This is by far the bluest conifer we have. It grows in upright, columnar form, and plants of this variety scattered through the landscape are wonderful for accent color marks.

8 to 10 inches, grafted, in 2 $\frac{1}{4}$ -inch pots..... .25

***Juniperus sabina* (Savin Juniper) H**

6 to 8 inches, once transplanted..... .08

6 to 8 inches, in 2 $\frac{1}{4}$ -inch pots..... .10

***Juniperus sabina fastigiata* (Narrow Savin Juniper) H**

An upright, very narrow growing form of the Savin Juniper. Wonderfully hardy and a beautiful plant.

6 to 8 inches, grafted, in 2 $\frac{1}{4}$ -inch pots..... .20

***Juniperus sabina tamariscifolia* (Tamarix Savin) H**

The outstanding low growing Juniper. Perfectly hardy both in extreme heat and in extreme cold.

4 to 6 inches, once transplanted..... .08

6 to 8 inches, once transplanted..... .10

4 to 6 inches, in 2 $\frac{1}{4}$ -inch pots..... .10

***Juniperus squamata meyeri* (Meyer's Blue Juniper) H**

This is one of the most unusual Junipers we have, growing best in a partially-shaded location, making a beautiful plant for the rock garden. It grows in a twisted, fantastic form and is very beautiful and unusual with its silvery-blue foliage.

6 to 8 inches, grafted, in 2 $\frac{1}{4}$ -inch pots..... .20

***Pinus halepensis* (Aleppo Pine) (S) O**

6 to 8 inches, in flats..... .04

***Podocarpus elongatus* (Fern Pine) O**

A beautiful fern-leaved, upright growing variety of fairly rapid growth which makes a beautiful decorative specimen for large pots in shady patios or buildings.

6 to 8 inches, in 2 $\frac{1}{4}$ -inch pots..... .08

Retinispora letinea aurea (Golden Fern Cypress) H

This rare and beautiful dwarf conifer has the appearance of a golden Boston Fern. Growing in semi-shade in a rock garden, it is one of the most decorative of conifers.

6 to 8 inches, in 2-inch pots, grafted..... .25

Retinispora obtusa Crippsi (Cripps Golden Cypress) H

Similar to the above except that it is a much stronger grower and tends to be more upright in habit.

Retinispora obtusa nana H

For those who want an extremely dwarf conifer for pots, Japanese gardens, or rock gardens, this little beauty cannot be beaten. It grows very compact and never more than a foot or two in height.

6 to 8 inches, grafted, in 3-inch pots..... .25

Retinispora obtusa pygmaea H

Similar to the above with the exception that the foliage is different, and it is possibly not quite so large as obtusa nana.

6 to 8 inches, grafted, in 2½-inch pots..... .25

Retinispora plumosa aurea variegata (Dwarf Golden Plume Cypress) H

A dwarf vase form variety, growing about a foot in height, with golden flecks through the foliage. Should be planted in partial shade.

3 to 5 inches, in 2½-inch pots..... .10

Sciadopitys verticillata (Umbrella Pine) (S) H

3 to 5 inches, in 2½-inch pots..... .10

Taxus baccata

8 to 12 inches, in 4-inch pots..... .25

Taxus baccata Dovastonii (Spreading English Yew)

12 to 18 inches, in 4-inch pots..... .25

Taxus baccata Washingtoni (Golden Washington Yew) H

4 to 6 inches, in 2½-inch pots..... .10

Taxus baccata elegantissima (Golden Yew)

12 to 18 inches, in 4-inch pots..... .25

Taxus hibernica (Irish Yew) H

4 to 6 inches, in 2½-inch pots..... .10

6 to 8 inches, in 2½-inch pots..... .12

12 to 18 inches, in 4-inch pots..... .20

Taxus hibernica variegata (Golden Irish Yew) H

4 to 6 inches, in 2½-inch pots..... .10

Thuya occidentalis pyramidalis (Pyramidal American Arborvitae) H

6 to 8 inches, once transplanted..... .08

6 to 8 inches, in 2½-inch pots..... .10

Thuya occidentalis woodwardi (Woodward Arborvitae) H

6 to 8 inches, once transplanted..... .08

6 to 8 inches, in 2½-inch pots..... .10

Thuya orientalis aurea nana (Berckman's Dwarf Evergolden Arborvitae) H

North or South, East or West, this variety is always in demand. It is always a good compact grower, and our plants grown from cuttings, taken from selected uniform plants,

give the most uniform and even field you can imagine. Plants of this variety will soon grow into money.	
6 to 8 inches, once transplanted.....	.08
Thuya orientalis Bonita (Bonita Arborvitae) H	
Rich dark green foliage which does not brown in the winter months. Grows to medium height in a broad, cone-shaped form.	
6 to 8 inches, once transplanted.....	.06
4 to 6 inches, in 2½-inch pots.....	.08
Thuya orientalis compacta (Compact Chinese Arborvitae) H	
6 to 8 inches, once transplanted.....	.06
4 to 6 inches, in 2½-inch pots.....	.08
Thuya orientalis elegantissima (Golden Pyramidal Arborvitae) H	
6 to 8 inches, once transplanted.....	.08

PALMS

Chamaerops humilis (Dwarf Windmill Palm) (S) O	
6 to 8 inches, in 2½-inch or 2¼-inch pots.....	.08
Cocos australis (Pindo Palm) (S) O	
8 to 10 inches, in 2½-inch pots.....	.08
Cocos plumosa (S) *	
8 to 10 inches, in 2½-inch pots.....	.08
Erythea armata (Blue Palm) (S) *	
6 to 8 inches, in 2½-inch pots.....	.10
Erythea edulis (Guadalupe Palm) (S) *	
10 to 15 inches, in 2½-inch pots.....	.08
Phoenix canariensis (Canary Island Date Palm) (S) O	
6 to 8 inches, in 2½-inch or 2¼-inch pots.....	.08
Washingtonia filifera (California Fan Palm) (S) O	
8 to 10 inches, in 2½-inch pots.....	.08
Washingtonia robusta (Tall California Fan Palm) (S) O	
6 to 8 inches, in 2½-inch pots.....	.08

CREPE MYRTLE O

Strong, bushy plants, 6 to 8 inches, in 2½-inch pots..... \$.10
The following varieties are available:

Dwarf Lavender	Tall Pink
Dwarf Red	Tall Red

DECIDUOUS TREES AND SHRUBS

Amorpha fruticosa (S) H	
A deciduous shrub with showy blue flowers.	
6 to 8 inches, from bed.....	.03
Gingko biloba (Maidenhair Tree) (S) H	
6 to 8 inches, from bed.....	.04
Kerria japonica flore pleno (Double Japanese Rose) H	
6 to 8 inches, in 2½-inch pots.....	.08

ROSITA CAMELLIA

Armstrong Nurseries
Ontario, California
